

# WHAT IF THE PRESIDENT OF THE UNITED STATES WERE AN ORANGE TURKEY?

*New illustrated political satire revisits Trump's first presidency ahead of the U.S. midterms*

THE CHRONICLES OF THE ORANGE TURKEY · BOOK ONE

## THE MEADOW WAS FULL

*An illustrated political satire by Ben Everwell*

**October 2026.** As America heads into the November 3 midterm elections, a new illustrated political satire takes readers back to Donald Trump's first presidency, this time with an orange turkey in charge.

*The Meadow Was Full* by Ben Everwell turns the political spectacle of 2017–2021 into a darkly comic animal fable in the tradition of George Orwell's *Animal Farm*. On a troubled farm, a loud, golden-orange turkey promises prosperity, demands loyalty, blames his enemies and insists that everything is going wonderfully, even when the other animals can see otherwise.

*"The meadow was full. Everyone says so. Anyone who says otherwise is an enemy of the farm."*

Across 20 chapters and 20 full-page illustrations, the book looks at propaganda and unquestioning loyalty. Some animals cheer. Others keep quiet. And an old donkey remembers what happens when truth becomes less important than pleasing the leader.

**Rule 1:** Do Not Believe Your Eyes. The meadow is full.

**Rule 2:** The Turkey Is Always Right. If the turkey is wrong, see Rule No. 2.
